EDUCATION

Northeastern University

Master of Science in Computer Science — GPA: 3.834/4.0

Boston, MA

Jan 2025 - May 2027

Guru Gobind Singh Indraprastha University

Bachelor of Technology in Computer Science — GPA: 3.55/4.0

Delhi, India

Jul 2018 - Jul 2022

WORK EXPERIENCE

Software Engineer Intern

Jan 2026 - Jul 2026

Abacus Health Solutions

Cranston, RI

- Developed a responsive, patient-facing web portal for diabetic members across **50+ client companies** using **React, TypeScript, Syncfusion, and Tailwind CSS**, surfacing insurance details, plan status, Rx cards, and co-pay guidance
- Engineered program-based views across **30+ integrated reward programs** and insurance providers, mapping each member to the correct plan and rendering personalized benefits, eligibility, and next-step details
- Integrated **RESTful APIs** backed by a **SQL** database to power member data, plan assignments, and benefit queries, ensuring reliable data flow between the front end and the data layer
- Wrote unit tests with **Vitest** and end-to-end tests with **Playwright**, integrated **Sentry** for logging and error tracking, and managed version control through **Git and Azure DevOps**

Graduate Teaching Assistant

Sep 2025 - Dec 2025

Northeastern University

Boston, MA

- Directed weekly CS1800 Discrete Structures recitations and office hours for **100+ students**, using **20+** practical code examples to teach **data structures and algorithms** and support a **15%** rise in average exam scores

Technical Support Assistant

Feb 2025 - Dec 2025

Northeastern University

Boston, MA

- Programmed a PowerShell script to automate imaging and configuration of **100+ Windows devices**, reducing manual errors by **95%** and accelerating deployment by **40%** while cutting software-related support tickets by **35%** across **JIRA and ServiceNow**

Software Engineer

Aug 2022 - Dec 2024

Ernst & Young

Delhi, India

- Architected and delivered **3+ full-stack web applications** with **React** for Fortune 500 clients across North America, Europe, Australia, and the Middle East, contributing to **\$500K+** in annual revenue
- Implemented full-stack internal web applications for **EY employees worldwide**, integrating **React** front ends with **REST APIs** and a **MongoDB** backend to streamline internal workflows across global offices
- Developed a **React** search portal integrating the **SharePoint REST API** that let EY employees retrieve internal data through a single interface, replacing the manual process of querying the SharePoint database by hand
- Engineered **EY.AI**'s user-facing application, a generative AI platform on the **OpenAI API** serving **400,000+ employees** at **99.9% uptime** with enterprise security, spanning the front end, API integration, and prompt/retrieval logic
- Wrote unit, integration, and end-to-end tests with **Jest, Cypress, and Postman** to validate application behavior and catch regressions before release across full-stack projects
- Optimized slow, established EY data-processing jobs and queries with **caching, indexing, batching, and parallelization**, and streamlined data pipelines across **microservices** to improve reliability and roughly double throughput
- Integrated logging and monitoring with **Datadog and CloudWatch** to surface production issues faster, reducing mean time to resolution from **4 hours to 30 minutes**
- Built automated **CI/CD pipelines** with **Azure DevOps** and Git workflows, cutting full-stack deployment time by **60%** and standardizing releases across projects

PROJECTS

SmartOffice Workflow Manager

- Built a React-based web application with **5-tier** approval workflow to manage company-wide Return-to-Office policies, improving request handling efficiency by **50%** and reducing processing errors

TechSkill Assessment Platform

- Deployed a React/SharePoint exam platform with four modules, replacing a manual system; this platform delivered instant results and supported **500+ employees'** technical skill assessments

Executive Performance Analytics Dashboard

- Established a website using MERN stack for 1,000+ EY partners across Europe West Region to streamline KPI and OKR management with country-specific admin roles, reducing review time by **70%** and improving approval efficiency

SKILLS

Languages: TypeScript, JavaScript, Python, Go, Java, C++, SQL

Web & Frameworks: React, Next.js, Node.js, Express, FastAPI, REST APIs, GraphQL, HTML, CSS, Tailwind CSS

Databases: PostgreSQL, MySQL, MongoDB, Redis, SQL Server, Supabase

Cloud & DevOps: AWS, Azure DevOps, Docker, Kubernetes, CI/CD, GitHub Actions, Jenkins, Datadog, Sentry, CloudWatch

Testing: Jest, Cypress, Playwright, Vitest, Postman

Tools & Practices: Git, GitHub, Agile/Scrum, OAuth, Swagger, Linux, JIRA, Claude Code, GitHub Copilot
